

CARD Student Newspaper

October 2011 - 1st Edition

Articles written by CARD Students

FACEBOOK

Facebook is one the mostly used social networks. Almost all students and young people use Facebook to connect and share. We thought to use Facebook to let the people know about CARD and latest news about course. Because of this we created a Facebook account: Central Asian Research and Development.

On our Facebook wall you can find information about the activities of CARD. Its so interesting to update people

all over the world. You can write on our wall about your thoughts about course. You can also write what you would like to see on our wall. You can be our friends on Facebook.

The news on wall may help you know about CARD activities and take an active part in them. We invite you all to join our page on Facebook. Hope you will enjoy our page.

MY MIC

I watched My Mic event before I performed there. I like that event because everybody has got he chance to take part. All people can take part in irrespective where they study and work. They can perform there and show their skills.

I think it is useful for all. Why? Because they show their

talents there with rap, music, dance, rock, poets, stories, and others. It is very interesting there. We know different kinds of music & poets there.

I invite you all to My Mic. Please come & enjoy!!!

- Pervane

(Editor's Note: My Mic is not a CARD activity but is usually hosted by, Shahmaz, our English teacher)
